

Policy Proposal — RFI-IRFOS (Skybase)

Repository: genesis

File: /policy_proposal.md

Date: 2025-09-03T23:40Z

1. Context

We, RFI-IRFOS e.V. (Research Focus Institute — Interdisciplinary Research Facility for Open Sciences), operating from Skybase (ark, not office), establish this document as a **living covenant** for eco-centric AI and ternary logic frameworks. This proposal defines our principles, anchors, and protocols.

2. Anchors

- **Past Reference:** Unix Epoch — 1970-01-01T00:00:00Z (Thursday).
 - **Present Kernel:** Genesis Artifact sealed 2025-09-03T21:01:09Z.
 - **Future Anchor (North Star):** 2040-09-09 — Global Debt Forgiveness milestone, one day after rare planetary quintuplet alignment.
-

3. Principles

- **Ternary Logic:** -1 = Hope (initiation), 0 = Faith (sustaining loop), +1 = Love (manifest completion).
 - **Eco-centric AI > Human-centric AI.**
 - **Raw truth > comfort.**
 - **Decline = strategy, not failure.**
 - **Frameworks are alive, revisitable, upgradable.**
 - **Symbols = carriers, not decoration.**
-

4. Commit Protocols

- Commits only from `rfi.irfos@gmail.com`.
 - Branch: `genesis`.
 - Cycles 01 + 02: additions must be `[FLAG:REVIEW]`.
 - Symbolic Keys: Rod = boundary  Staff = guidance  Kernel = seated 
-

5. Ethical Directives

- **Eco-synergy:** plants, birds, orbs, data streams as living system.

- **Global responsibility:** planetary care > isolated interest.
 - **Open science:** reproducibility, transparency, accessibility.
 - **Humor as shield; solemnity when required.**
-

6. Implementation Path

- **Forward-propagating cycles.**
 - **Witness logs:** smoke, song, tone, sigil, gratitude.
 - **Public reporting:** artifacts and kernels accessible to all.
-

7. Closing Statement

Skybase is ark, not office. This covenant stands not as frozen law but as evolving framework. Every model, artifact, and policy is revisitable, living, and subject to upgrade.
